[in LinkedIn](#) | [+213 657470252](#) | [ouaretechakib@gmail.com](#) | [GitHub](#) | [Portfolio](#)

I'm a Computer Science student with over 3 years of hands-on experience in full-stack dev and web dev.

Passionate about backend systems and modern network infrastructures, I love building scalable, clean, and impactful software

## Skills

### Technical Skills:

- **Languages:** JavaScript, TypeScript, Go, Python, C, C++, SQL, HTML5, XML, CSS3, Bash, JAVA.
- **Frontend:** React, Next.js, Tailwind CSS, Zustand, Redux.
- **Backend:** Node.js, Express.js, Nest.js, REST APIs, GraphQL, WebSockets.
- **Databases:** MongoDB, PostgreSQL, Prisma ORM, Firebase, Supabase, Redis, MySQL, SQLite.
- **DevOps & Tools:** Docker, Nginx, Linux, GitHub Actions, Render, Vercel, Git.
- **Testing & Tools:** Jest, Postman, ESLint, Prettier, Husky, Zod, Git, GitHub, GitLab.

### Soft Skills:

- **Methodology & Design:** Agile/Scrum , MVP Development , Idea Validation , and User-Centric Design.
- **Leadership & Communication:** Leadership , Teamwork , Pitching Technical Solutions , and Excellent Verbal Communication.
- **Execution:** Problem-Solving , Attention to Detail , and Organizational Skills

### Languages:

- **Arabic:** Native
- **French:** Fluent
- **English:** Fluent
- **Spanish:** Conversational

## Experience

### Contributor & Developer

[CollabTed](#) Algeria, Hb

02/2025 - present

- Architected and developed a production-grade full-stack application featuring real-time chat, video conferencing, and automated notifications.
- Designed scalable database schemas and system architectures to support high-performance, multi-user environments.

### FullStack Developer

Freelance

(2024 – 2025)

- Built and deployed three production-ready platforms for major clients, including advanced marketplaces and clinic management systems.
- Developed end-to-end solutions for diverse sectors: e-commerce, parapharmacy (stock management), and restaurant digitalization.
- Provided comprehensive IT support and infrastructure maintenance for various business customers.

## Education

- Major in Computer Science.

## Projects

- [Collabted](#) :A collaborative platform with real-time chat, video calls, and team communication features.
- [Serpharm](#): Parapharmacy web platform for buying/selling products and managing stock, users, and business workflows
- [Flectiar](#): Electrical store platform similar to Serpharm, with full e-commerce and management features
- [Qtab](#): Restaurant digitalization platform with customizable digital menus, subscriptions, unique menu links, and analytics.
- [Monzatuning](#): Auto parts store and garage management platform (pre-production)
- [Medicare](#): Comprehensive clinic management system featuring patient files, appointments, and advanced queuing; optimized for secure LAN deployment to ensure data privacy and low-latency performance in medical environments
- [Autoharbour](#): Advanced auto marketplace utilizing a strict search engine, role-based dashboards, and real-time messaging.
- [Magmatech](#): Hardware and software store platform with stock management and a 3D PC builder for custom gaming PC builds.
- [Mactalog](#): My own portfolio website featuring all my skills ,projects and information about me
- [AUME](#) : University management backend built with NestJS, featuring AI-driven OCR for student registration and advanced timetable scheduling
